

# CÉDRIC MARCELLIN

• Senior Frontend Developer •

## Career Summary

Senior Frontend Developer with 10+ years of continuous ownership on the same core product — growing from junior to the most senior engineer while the stack evolved from Ruby on Rails through multiple generations of React. Along the way: firmware UI for a physical router, a browser-based password manager, and high-conversion landing pages contributing measurably to one of the world's largest VPN providers. Side projects in Flutter and Unity/C# because some people just can't stop.

## Recommendations

### George Safta

Software Engineering Manager · ExpressVPN · Feb 2026

*"Cedric is a fantastic Senior Frontend Developer and an great teammate. He's technical, highly experienced, and brings a warm, collaborative spirit to every company. If you're looking for a seasoned pro who is as easy to work with as he is talented, Cedric is your person. Highly recommended!"*

### Mark Ray-Smith

Global Head of Architecture, Securities Services · FLO Capital (NLS) · May 2017

*"Cedric rose to every challenge — from mastering TypeScript & Angular 2 in weeks to building a mobile site in ASP.NET Core Razor. Highly creative, technically strong, and a very valuable resource for any team."*
